

**ICoTA Canada 2016 Roundtable Program – Oct 19<sup>th</sup> 2016**  
**Ramada Plaza Downtown 708-8th Ave SW, Calgary, Alberta**

7.00 am – **Registration & Buffet Breakfast**

8.00 am – **Opening Remarks** – Greg Chapin (*President ICoTA Canada*)

8.10 am – **Recent advancements with a unified CT extended reach technology** – Silviu Livescu (*Baker Hughes*)

8.35 am – **Optimisation of metal-on-metal lubricants for CT applications** – Scott Sherman (*Trican*)

9.00 am – **Agitating explosives in extended reach wells; a good idea?** – Jack Kolle (*Tempress Technologies*)

9.25 am – **Coiled Tubing roles in re-fracs** – Eric Schmelzl (*NCS*)

9.50 am – **Coffee Break & Exhibition** (40 mins)

10.30 am – **Challenges building a 9000m string; reaching the limits in extended reach operations?** – Irma Galvan (*Global Tubing*)

10.55 am – **A new CT grade for improved general and sour service** – Bruce Reichert (*Tenaris*)

11.20 am – **Development and compatibility testing of CT with 140 ksi min. yield strength** – Kevin Elliott (*Quality Tubing*)

11.45 am – **The Challenges of CT failure analysis** – Justin Bekker (*Stress Engineering*)

12.10 pm – **Group photograph for presenters only** (by registration table)

12.10 pm – **Lunch & Exhibition;**

12.45 pm - **Keynote address:** – “Do you feel better after 2 years in hell?” G. Allen Brooks (*G. Allen Brooks LLC*)

1.35 pm – **Real-time Collaborative Interventions** – Arun Joseph (*Stimline*)

1.50 pm – **Online KPI’s enable operators to assess service company performance** – Paul Brown (*Coildata*)

2.05 pm – **Potential effects of water hammer pulses on sand transport** – Jack Kolle (*Tempress Technologies*)

2.20 pm – **Hydraulic short trips for cleaner wellbores** – Kevin Thiessen (*Thru’ Tubing Solutions*)

2.35 pm – **A novel method of transporting sand** – Scott Churchill (*Trican*)

3.00 pm – **Coffee Break & Exhibition** (25 mins)

3.25 pm – **Choosing a biocide for well interventions; protecting your equipment, fluids & reservoir** – Virginia Wornstaff (*OSP*)

3.50 pm – **CT telemetry system improvements; monitoring realtime tension, compression and torque** – Thomas Watkins (*Baker*)

4.15 pm – **Thin clad CRA : down hole corrosion protection** – Stefan Hartman (*Shell International*)

4.40 pm – **Closing remarks** – Greg Chapin (*President ICoTA Canada*)

4.45 pm – **Sponsored Cocktails & Exhibition**
